

## GRAND VIEW FIRE HOUSE PARTY IS SOCIAL EVENT

Oratory, Refreshments and  
Music Combine to Make  
Occasion Success

Fire House No. 3 Saturday night was officially dedicated to the service of the citizens of the Grand View district.

The creation of a public park in the neighborhood was suggested by Councilman C. E. Kimlin. This is a lot 90 by 100 feet in size located directly across the street from the Grand View cemetery. Mr. Wilcox said that he had read in The Glendale Evening News the city's need for suitable property in the Grand View district and had gone to the city hall with the intention of selling some real estate to the city administration.

While there he was induced to consider philanthropy by City Manager W. H. Reeves. He said that he was more surprised than anyone else when he found that he had given the lot to the city.

Just Like Lawn Fete

The ceremony was in the nature of a lawn fete—only the lawn hasn't had time to sprout yet. Long picnic tables were placed in front of the white plaster building and over these were hung electric lights shaded in red.

The color scheme of the occasion was red and white. This was carried out in the American flag, which hung in front of the fire truck of red contrasted with the brightly shined parts of nickel and brass.

Barbecued sandwiches, coffee, ice cream and cake were served to neighbors present. All items on the bill of fare seemed unusually savory.

The firehouse and the new home of Fire Chief A. H. Lankford, which are in the same building were both open for inspection and many compliments were paid to each.

The program consisted of songs by the Jewel City quartet, George Blix, Mayor Spencer Robinson and piano selections by Marjorie Audie, daughter of Mr. and Mrs. Lankford, and of 334 West Cypress street.

All members of the city council were present. City Manager W. H. Reeves was there also.

## THURSDAY CLUB'S PROGRAM SUCCESS

Plenty of Real Talent Is  
Provided to Satisfy  
Happy Audience

The members of the Thursday Afternoon club are highly elated, they state, over the success of their entertainment and dance held at the Knights of Pythias hall on Saturday.

The program for the evening, under the direction of George Larkin, proved to be one of the sensations of the season, it is declared. With an array of talent headed by Mr. and Mrs. George Larkin, who fascinated with their Argentine Tango, French Apache and eccentric fox trots, Mr. and Mrs. Harry Girard in operatic selections that scored heavily, charming Viola Yorba, who sang two bewitching Spanish songs in costume, Alma Murphy in a number of clever readings, Mr. Bode and Mr. Henning in a number of their own compositions on the saxophone and piano, the success of the evening was assured. Joe Singleton, Australian comedian, had everyone in an uproar with his funny character stories, the program was thoroughly enjoyed.

Each act was presented with a beautiful bouquet of flowers which had been cleverly arranged by Mrs. Pancroft and Mrs. Bacon. Bode's orchestra supplied the dance music and, in between refreshments, everyone danced.

Everyone present last evening voted Mr. and Mrs. Mason and their able assistants royal entertainers and Mayor Robinson declared that he wished he had arrived at 2 o'clock instead of 7. So it was some affair.

## MAN'S MIND GOES BLANK, HIS AUTO IN COLLISION

Tony Ruiz Gives Unusual  
Explanation for Accident;  
Several Other Crashes

Automobile collisions were numerous over the week-end in Glendale.

Tony Ruiz of Piru was driving a Ford truck north on San Fernando Road about 11 o'clock last night.

All of a sudden his mind became a blank, according to his own assertion, and he did not know anything more until his machine came to a stop about 100 feet away and headed toward the south.

Meanwhile, his car had swerved into a Hudson touring car driven by William Joseph Proctor of Los Angeles and taken off its left front wheel.

An auto steered by Andrew Hunter Adams of Los Angeles was crowded to the left curb on Colorado street, near Verdugo Road, at 10:30 yesterday morning when J. R. Mitchell of 705 South Verdugo Road turned in the middle of the block. A rear wheel was smashed, the radiator punctured, the axles thrown out of line and the fenders damaged.

The touring car of B. V. Brasher of 1017 Melrose street was bumped by a Glendale Creamery truck Saturday afternoon while it stood in front of his store at 1413-A South San Fernando Road, the South Glendale Variety store.

Woman Thrown Out

The automobile of George C. Beldam of Los Angeles was hit from the rear by a car driven by L. R. Popal of Pasadena yesterday afternoon at 5 o'clock when the line of vehicles came to a stop at Los Feliz and San Fernando Roads.

Mrs. Nora Cazares of Alhambra was thrown out of an automobile driven by Frank E. Soletto of Los Angeles about 11:15 last night when the rear end skidded around and hit a telephone post.

A horse being driven by Frank Carmona of La Crescenta was killed and damage was done to his buggy Saturday night, on Michigan avenue, Montrose, by a machine driven by Walter N. Farry.

This Is Peculiar

J. Rondou and L. Libert of 532 West Broadway, owners of the Little Mill on San Fernando road, met with a peculiar accident while driving through Los Angeles Saturday night.

They were proceeding placidly, north on Hill street in their Ford touring car when a Studebaker Special Six driven by A. C. Routhie, Los Angeles attorney, swerved from the southbound line of cars, crossed the street and plunged into the side of of the startled Ford. It emitted a startled shriek and stopped dead in its tracks, while the Studebaker, which had the wheels skidded around, tilted a car which had stopped in front, gave a sigh and snuggled closer.

Fortunately, no one was injured, and the only damage done to the Ford was the bending of the front axle and the nicking of a fender. The Studebaker was undamaged, except for slightly bent fenders.

## PLACE OF CHURCH CAN'T BE FILLED, PASTOR HOLDS

More Men Should Become  
Members of Some Branch,  
Says Rev. Preston

A sermon especially for men was preached yesterday morning at the Pacific Avenue Methodist church.

"Some men may absolve themselves from any obligation to the church by pleading that they are not Christians," declared Rev. Harley G. Preston. "Very well. Then let us consider the incidental blessing of the gospel, which, like the dew of heaven, fall alike upon the just and the unjust."

"You live in a Christian land. You are compassed about by the advantages of a Christian civilization. The home that shelters you, the laws that protect you, the books and newspapers that you read are all by-products of the gospel."

"There are those men who say they do not care for the church. But 99 out of 100 keen business men want their children in it and most of them desire their wives there also."

"If the church merits criticism—and there does not exist today any organization that does not—then let's get in and help make things right."

"There are those who say the church is for women and children, and some men look upon the pastor as a sort of jellyfish, classified, half-way necessary sort of a fellow with lots of spare time on his hands, etc. Well, it is barely possible that once in a while some such fellow is turned loose upon the world, but they are few and far between. And I am here to say that the work of a conscientious, hardworking minister of the gospel is anything but easy."

**Praise for Women**  
"And I would like to say to the men who feel that the church is for women and children, that it is, and ever will be; and I will also say that the women who come alone are deserving of more credit than the men who stay at home, provided they count come."

"There are a number of men who cannot afford to miss lodge, or club, but church comes third, fourth, or is not even considered seriously. Now I believe in lodges and clubs, and belong to several myself, and expect to join more of them and I like to mix up with the fellows there, get acquainted and have good times together. And I know that most such organizations are founded on the Sacred Book and that if men lived up to the teachings they would be all right, etc. I know all this. But no lodge or club should for one minute be permitted to take first place over the church."

## CHRISTIANITY OF POSITIVE KIND IS NEED, CLAIM

Dr. C. M. Crist Tells of  
Elements Necessary in  
Religious Life

"Negative goodness is only better than positive badness," stated Dr. C. M. Crist yesterday morning at the First Methodist church.

"Five hundred and fifty years before Christ, Confucius gave the negative golden rule, 'Don't do unto others what you would not have them do unto you.' Jesus Christ's teaching was a thousand leagues beyond that. It is the positive element that gives fullness to life."

"Christianity is not only quitting something, it is the beginning of something. It is this full positive life that brings the Christian out into the midst of a needy world and puts him to work. Christ's command is 'Go ye unto all the world.'"

"I have the conviction that much of our failure has been due to the fact that we have not expected enough of the supernatural in our lives. Faith, expectancy, great ambitions and holy aspirations all belong to those whose hearts God has touched."

"No life ever comes to its best without the assurance of God's presence. When God would exalt Moses and make him a great leader instead of a mere shepherd boy, he caused him to step aside from the beaten path and see the burning bush. Then Moses said, 'This

"The Call for Harvest Hands" was the subject of the sermon yesterday morning at the Central Christian church.

"Less than fifty years ago the church was praying for doors to be opened," asserted Rev. C. A. Cole. "Today she is not ready to enter the doors that stand wide open. Again and again you have heard of the whited sepulch, in China awakening from a long and heavy sleep to a new day, in Korea where they are walking twenty miles to a Bible class. The fields are white to the ends of the earth. What opportunities!"

"Sometimes we hear of the ready harvest fields of America where great individual empires are springing up and where we are building the most marvelous cities the world has ever seen. The fields are white in America!"

"But think of these words as referring not to the world, not to America, but to the community in which you are living."

**Must Forget Yourself**  
"Not till we forget ourselves, our respectability, our culture, our social position, our everything can we reach the real need around us. If you do not forget yourself for your needs and comforts for the sake of the church and its ministries and for the sake of the needy, you will never reach the crown of diadems."

"There is little use talking church attendance and prayer meeting to a good many folk, for they are not interested. In some way we must meet them on the plane of their needs. It may be sympathizing with them in bereavement, lending a helping hand in time of great distress or urgent need. It may be by simply reaching out to the homesickness which takes possession of so many in our great cities."

"Thousands of young men go to ruin in all our cities because there is no touch of home. 'In striving to make a heaven on earth we must not forget that there is heaven beyond.'"

**Oil Stove Explosion;  
C. Wasson Burned**

The explosion of an oil stove in the tent in which he was living at 1319 Stanley avenue yesterday sent Charles Wasson to the Glendale Sanitarium and Hospital where severe burns about the face and hands were treated. Mr. Wasson is an employee of the city in the auto repair shop behind Fire Station No. 1. One of his brothers, who is an employ of the street department, was burned at the same time.

## SECRET OF POWER IS PRAYER, SAYS REV. EDMONDS

It Is Law of Life and It  
Unlocks All Mysteries,  
Pastor Declares

Rev. W. E. Edmonds preached Sunday morning at the Presbyterian church from the words, "Thou shalt then call, and the Lord shall answer"; "Before they call, I will answer; and while they are yet speaking, I will hear." A resume follows:

"We need to remind ourselves that God knows, and He cares. And he makes no mistakes. Therefore quit hanging on to your own care. All His resources are at the call of His children. The secret of power is prayer, which unlocks all the mysteries. Prayer is the law of life; man is made that way."

"This matter of prayer is the greatest of all our concerns. People say there is business to be looked after, things must be done. But you shouldn't dare strike out alone; put God first. Let there be a readjustment in our homes, and time made. It is a sane program to do this. Prayer changes things."

"There needs to be a secret place for prayer—not for shame of it, but to provide for it. When comes that great need, then is when we need to know this secret power of prayer. A man forgets the lock combination of his safe when he is in a hurry, he forgets your combination? Then get it, and open up your riches."

**Neglect and Forgetting**  
"There are hindrances; there is neglect and forgetting. Get back, realize it is sin that is making a hindrance. God is not doing more because He can't trust us. And there is indolence; stirring up into activity is needed. Think of Christ praying in Gethsemane, sweating blood. And there is indifference; remember Christ since He was here has spent 1900 years in intercession for His people."

"Prayer is a force. Forces are active in all natural elements; there is intense infinite activity in the sun; yet there is no noise. What is there to do with our prayer life? Everything! We are children of the King. Be gone with your weakness! We reach God, the arm that moves the world. We who are redeemed, shall we be resultless? There is immeasurable power in the one connected with God. But there are so many who don't know prayer. 'They that wait upon the Lord shall renew their strength.' 'When all is right between God and us prayer is not a passive thing, it is a spiritual dynamic. The one who has unlocked the secret of prayer is the one who can do things.'"

"You who are tired, sit down with Jesus and rest and drink of the water of life."

## SPUD GROWERS TO HOLD FIELD DAY ON JUNE 27

Annual Gathering Will Be at Van Nuys; Notes of Valley Territory

Potato growers of Southern California will be interested in the announcement just issued by E. D. McSweeney, chairman of the Los Angeles County Farm Bureau potato growers' department, to the effect that the annual potato growers' field day will be held on Tuesday, June 27, at Van Nuys.

The morning session will be held indoors in the auditorium of the Van Nuys High School, meeting at 10 o'clock. The Van Nuys Chamber of Commerce has agreed to make provision for serving a lunch.

At 1:30 o'clock a field excursion trip will be held. During the afternoon trip a number of potato fertilizer plots will be visited where the results of plowing under cover crops of beanstraw and alfalfa and the use of different sorts of fertilizers will be observed.

There will also be a potato grading demonstration and a field discussion of the nematode problem during the course of the afternoon trip. It is expected that Prof. E. O. Essig, entomologist of the College of Agriculture, will be present.

Culling Demonstrations

The schedule for the series of poultry culling demonstrations to be conducted by the Agricultural Extension Service in co-operation with the Poultrymen's Department of the Farm Bureau has been arranged as follows for this vicinity:

Monday, June 26, 10 a. m., La Canada, place of J. W. Seaght, north of Commonwealth avenue, 2 p. m., San Fernando, place of Mr. Lowe, Hubbard avenue.

Tuesday, June 27, 10 a. m., Van Nuys, place of L. G. Wiley, Sherman Way.

Methodists to Build

San Fernando Methodists made history on Sunday morning. That was the day set apart for a "ground breaking."

A social and recreational hall of 80x100 feet and to cost around \$15,000 is to be erected at the corner of Third and Hagar, on the lot adjoining the edifice, and in architecture to be in keeping with the church building.

Sylmar Creamery Busy

The packing house at Sylmar is a busy place the year through. The work of canning olives was completed in April and in a short time the force will begin to can pimientos and figs. Two carloads of canned olives were shipped this week.

Keep It San Fernando

At the last meeting of the Ebell club at San Fernando, which was attended by a full membership and a number of visitors, a resolution was passed in which was condemned any attempt to change the name of the San Fernando valley.

Oil Fields Oust Man From Home

Plans to Quit Long Beach and Takes Option on Glendale Property

Another home is planned to be erected in Glendale, probably in the near future. F. J. Walp, of Long Beach, has secured an option on property on Kenneth Road west of Pacific avenue and expects soon to take up the land and build a residence to cost between \$10,000 and \$15,000, according to E. T. Seidenglanz of the Circle Real Estate company, which is handling the deal.

Mr. Walp's home near Signal Hill in Long Beach is being almost crowded out by the expanding oil field there, and he has been in search of the ideal home spot. A trip through Glendale convinced him of the fact that this is the "City of Homes," and he immediately secured the option on the foothill property.

It consists of almost an acre of land, and although he has not yet made the purchase, it is the opinion of Mr. Seidenglanz that the deal will be consummated shortly, since Mr. Walp is very much enthused over Glendale and Glendale's homes.

If the proposed residence is built, Mr. Walp, with his wife and two children, will move to Glendale as soon as it is completed.

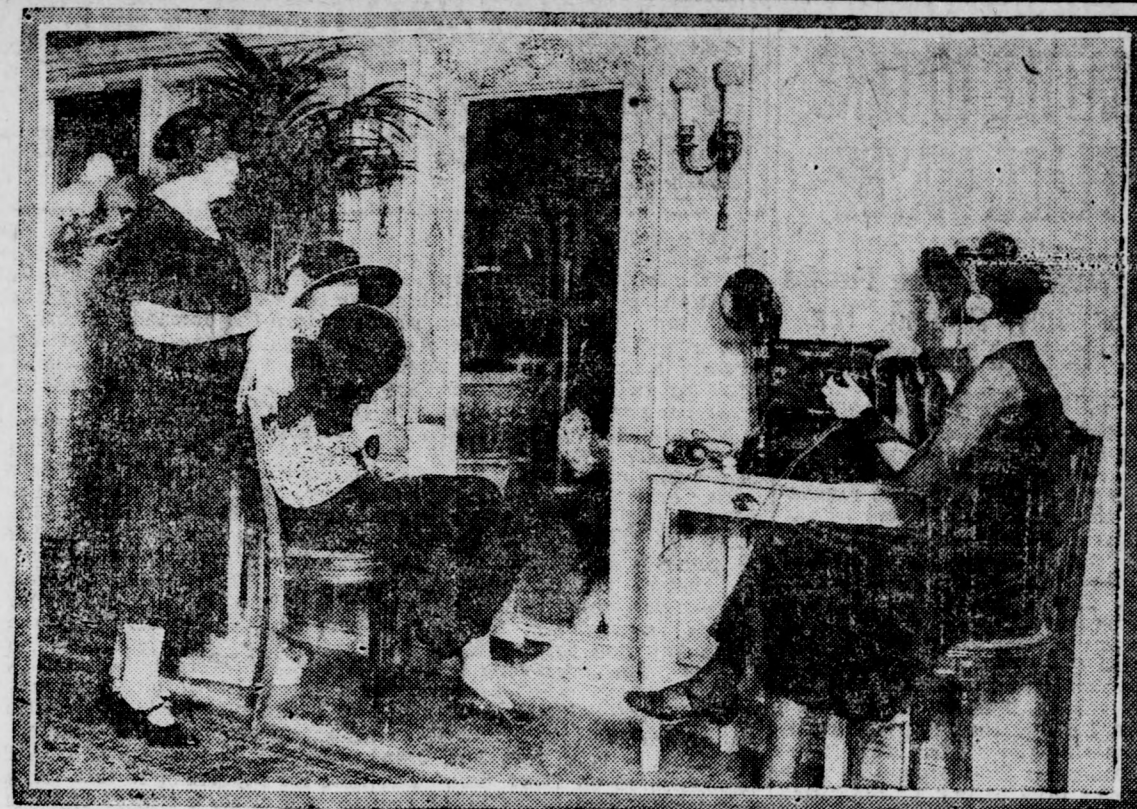

## Gateway Tract Lots Are Selling Rapidly

About half of the lots in the West Broadway Gateway tract, at West Broadway and San Fernando Road, have been sold, according to E. D. Yard, selling agent for the property. There are eighty-one lots in the tract, and thirty-nine of these have been disposed of since the sign of the star and crescent above all others and all she has at the disposal of the visitors. Today was a feast of music, the bands, the chatters—more than 800 chorists marched—serenaded and concert at all hours at a score of different points.

## LIBERAL TRIUMPH IN BARON KATO'S SELECTION

New Ministry in Japan Will Bring All Conflicting Elements Together

By JAMES M. McCLAIN  
Tokyo, June 12.—Liberals triumphed in the selection by Admiral Baron Kato, new premier of Japan, of Keisuke Mizuno, civil governor of Korea, as minister of foreign affairs.

This appointment and the evident fact that prior to accepting Admiral Kato forced an understanding between conflicting elements, thus insuring majorities in both houses, were the outstanding features today in connection with the formation of the new ministry.

Governor Mizuno has been connected with the home office more than a quarter of a century, entering it as councillor and personal secretary in 1895. He was named civil administrator of Korea in 1919.

Wail of Disappointment

Despite pleasure over the appointment of Mizuno, the liberal press greeted the balance of the ministry with a wail of disappointment, more than one alleging the clerk had been turned back to a return of bureaucratic government, with death to party rule and a strengthening of imperialism. It is admitted, however, the cabinet is probably an efficient one.

Acceptance by Admiral Kato of the premiership assures Japan carrying out the spirit as well as the letter of the Washington disarmament conference agreements. He has retained his old post of minister of the navy as well as the premiership in order to personally supervise the carrying out of the naval agreement.

## SHRINERS ARRIVE IN GOLDEN CITY

Cross Hot Desert Sands and Receive Big Welcome in San Francisco

By ELLIS H. MARTIN  
For International News Service.

SAN FRANCISCO, June 12.—Shriners' arrival in the golden city of the west for the golden jubilee was complete today.

Sweeping across the hot desert sands from all points of the compass, the hosts of nobles and their friends poured into the waiting arms of Islam's 10,000 welcoming Shriners, and Mecca was theirs.

The final influx of the red-fuzzed invaders started at 4:30 this morning when Syria temple, Pittsburgh, the second largest in the United States, awakened the sleepy city with a noisy arrival. They were accorded a rousing welcome and the blast of their trumpets had hardly died away when in pulled Ben Hur temple from Austin, Texas. They proved the vanguard for the mighty Medinah invasion from Chicago in the form of five special trains bearing 2,000 nobles.

Many Special Trains

From then on every hour of the day saw at least one temple arriving, more than forty special trains bringing them in from all over the United States. Twenty-seven specials arrived Sunday.

San Francisco transformed for the occasion into a barbarically decorated mass of color, has hung the sign of the star and crescent above all others and all she has at the disposal of the visitors. Today was a feast of music, the bands, the chatters—more than 800 chorists marched—serenaded and concert at all hours at a score of different points.

## RADIO EXPLAINED

By E. H. LEWIS  
INSTRUCTOR NEW YORK Y.M.C.A. RADIO SCHOOL

NEUTRAL ATOMS AND IONS

Imagine that a baseball is surrounded by a number of round marbles and that the baseball is charged with positive electricity and the marbles are charged with negative electricity. Assume that there are ten units of positive charge on the baseball and one on each marble. The baseball would be able to attract to itself ten of the marbles, but the rest would not be attracted nor would they be repelled unless brought very close to the attracted marbles. That is, the effect upon the surplus marbles would be neutral because the positive charge of the baseball neutralized the effect of the negative charges on the attracted marbles. If the baseball is the positive nucleus of an atom and the marbles are electrons, it is thus seen that the atom, which is composed of a positive charge and an equal amount of negative electricity, has a neutral effect upon any other charged bodies or any other charges. It is a neutral atom. But if one of the attracted marbles were forcibly removed from the collection of marbles around the baseball there would remain ten units of positive charge (on the baseball) and nine units of negative charge (due to the remaining attracted marbles). The effect of the positive electricity would overbalance the effect of the negative electricity remaining, and the net effect would be that of one unit of positive electricity. Suppose we consider, then, the atom which has had one of its bound electrons forcibly removed from it. It should be clear that the net effect of the atom would then be slightly positive. In fact, so far as outside electrical charges are concerned, the atom acts as though it were capable of attracting to itself one or more electrons. It might be itself attracted to something which carried a large negative charge. It is possible to create a drift of ions, then, if they can be moved from their positions. Just as it is possible to create a drift of electrons. These things can be made to occur under certain circumstances which will be considered in a later article, and it will be seen that the theory of electrons and ions ably explains otherwise very obscure phenomena in connection with radio.

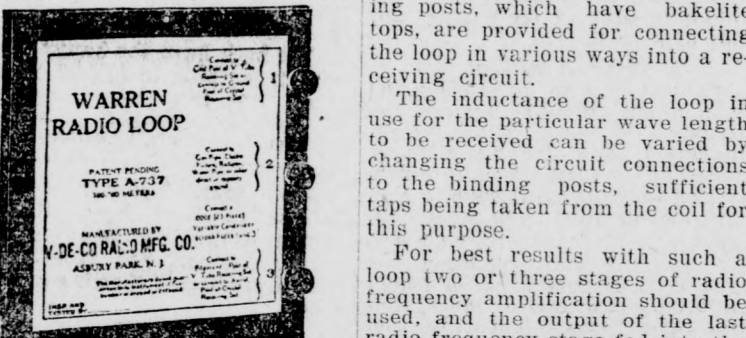

An ion may now be defined as an atom which has either gained or lost one or more electrons.

## NEW APPARATUS AND DEVICES

RADIO ENGINEER, CUTTING AND WASHINGTON RADIO CORP.

A LOOP FOR THE RADIO RECEIVER

Loop antennae will probably solve a lot of problems connected with the reception of radiophone broadcasts. At any rate, a very large number of experimenters and others are using them to good advantage. It must be always understood, however, that loops will not allow of the same production of sound volume in the telephone receivers as outside antennae, unless very special receiving equipment is used.

The loop illustrated is very small, only six inches square and one-half an inch thick. It can be put inside of a cabinet so that it is in no way visible. The coil of wire which forms the loop proper is mounted upon a mahogany finished wood frame. A top and bottom piece of bakelite provide covering which protect the loop. Binding posts, which have bakelite tops, are provided for connecting the loop in various ways into a receiving circuit.

The inductance of the loop in use for the particular wave length to be received can be varied by changing the circuit connections to the binding posts, sufficient taps being taken from the coil for this purpose.

For best results with such a loop two or three stages of radio frequency amplification should be used, and the output of the last radio frequency stage fed into the grid circuit of a detector tube. The output circuit of this detector may be coupled to the input circuit of an audio frequency amplifier if large sound volume is desired from, say, a speaker.

It is claimed that this type of loop was successfully used in reception in connection with a receiver installed on a rolling chair at a popular Atlantic coast resort.

prediction, for the house opened to an exceptionally fine business. "Why Change Your Wife?" will be shown today and tonight only, in accordance with the "revival week" plan. Tomorrow's feature will be the great John Barrymore in Stevenson's famous story, "Dr. Jekyll and Mr. Hyde."

By WARREN W. WHEATON For International News Service. CINCINNATI, June 12.—Facing the difficult problems of its forty-two years of its existence, the American Federation of Labor opened its annual convention here today, its leaders militantly determined to combat increasingly threatening inroads on organized labor.

Four hundred accredited representatives of the millions of workers affiliated with organized labor began in the Ohio National Guard armory two weeks of deliberations from which labor leaders demand there must emerge a solidified organization able to cope with asserted "grim struggle ahead."

Included in its personnel men of all shades of thought in the labor movement, progressiveness, stand-patters, reactionaries and radicals, the convention got under way with a slight feeling of uncertainty manifest among the delegates as to whether harmony of efforts of Samuel Gompers, labor head, will prevail.

The convention session will recess early today. Working committees will be appointed this afternoon and the real work of the meeting is expected to begin tomorrow.

He is representing the Alaska Steamship company which will run a special excursion from Los Angeles to Skagway, Alaska, leaving about July 19. The trip will include 6300 miles of ocean voyage and a side trip to Mt. Rainier with everything paid.

Meals are provided aboard the boat, but stop overs at San Francisco, Seattle and other ports will make meals ashore available. Reservations for this trip must be made within the next ten days, Mr. Wilson states, and he may be reached by phoning Glendale 2153-J.

Seventy-five couples enjoyed the Bird Rock club dance at the Women's club house in Eagle Rock Saturday night, part of the musical program being provided by radio. The K-W. Radio Products company of Glendale loaned the machine for the occasion, which was greatly appreciated.

Quite a bit of "kidding" over the other was indulged in by the Los Angeles broadcasting stations which would call out, "On with the dance Eagle Rock," etc., as another tuneless melody would be tuned into the magnavox.

## NEW YORK STORM KILLS TWO SCORE, MILLIONS LOSSES

39 Dead and 19 Missing  
In Accidents Resulting  
From Great Gale

NEW YORK, June 12.—New York today is taking toll from the worst storm ever experienced in its history.

The known dead from drowning, the overturning of a giant Ferris wheel, the uprooting of trees and other accidents resulting from the storm is placed at thirty-nine. Nineteen more are missing or unaccounted for.

It was impossible today to secure even an approximate figure on the property damage caused by the storm, but it is believed that the losses will run into the millions of dollars.

The number of injured has not yet been learned, though it is believed that they will number more than the dead and missing.

The furious 100-mile gale that unexpectedly swept New York and its vicinity about 5:30 o'clock yesterday afternoon wrought inconceivable havoc. A giant Ferris wheel in Coney Island park was completely overturned, catapulting the people in it to the beach, killing five and injuring twenty-two.

### Many Are Drowned

Trees standing as high as 100 feet were uprooted. A two-story house was torn loose from its foundation, limbs were torn down and boats on the water were overturned, drowning many.

The beaches, parks and all other places in and around New York were filled to overflowing when the storm broke. The humidity had been stifling all day and crowds had gone to the shores and parks in an effort to catch a breath of fresh air.

The weather bureau had expected a slight rainfall but the coming of the terrific gale was wholly unexpected. At that hour, for a period of about ten minutes before the gale broke in all its fury, an ominous absence of all wind came over the city. Not a breath of air stirred. Suddenly the gale broke loose, churning the water fiercely and gaining strength with each passing moment.

On Long Island Sound, Pelham bay, East Chester bay, Coney Island and all other resorts, row boats and other water craft scurried for shore. Some made it, but many were overturned and their occupants drowned.

### VISIT BEACHES SUNDAY

Mr. and Mrs. J. W. Walton and daughters, Mrs. Ruth Walton Stafford and Miss Ruth Walton of 206 Maryland Court, spent Sunday at the beaches.

## Illinois Decides to Enter Annual Meet

CHICAGO, June 12.—University of Illinois has reconsidered its decision not to participate in the annual intercollegiate track and field championships on Stagg field, beginning next Friday, according to word received here today.

The entry of Illinois makes it likely that a great battle for first honors will be waged between the Illinois and California. The two teams are regarded as the strongest entered, Illinois having won the western championship and California the eastern, as well as top honors on the Pacific coast.

## SEEKS TO FORCE DEMPSEY BATTLE

Paddy Mullens to Attempt to Gain Action Behalf Of Harry Wills

By DAVIS J. WALSH  
Sporting Editor International News.  
NEW YORK, June 12.—Having watched the New York state commission do its stuff in ordering Johnny Kilbane and Johnny Wilson to defend their title against the respective challenges of John Dundee and Harry Greb, the enterprising Paddy Mullens is about to request the commission to take a similar action on behalf of Harry Wills and challenge to Jack Dempsey.

Mullens will post a certified check with the commission as evidence of good faith and will then sit back and await results. If the commission is at all consistent, it will immediately demand that Dempsey accept the challenge within a specified period or have his title declared automatically vacated.

This was the official edict in the cases of Dundee and Kilbane, and Greb and Wilson, but the two challengers referred to are expected to claim the Caucasian race as their own, while Wills is a mixed breed of darkest ray.

Buxed bouts are neither welcomed nor allowed in New York rings, although there is no law against them.

The commission merely turns a sour eye on the proposition of black and white combat, and no promoter has yet been sufficiently foolhardy to brave official displeasure on this score.

## Jack Britton Signs For Benny Leonard

NEW YORK, June 12.—Jack Britton, welterweight champion, has been matched to meet Benny Leonard, lightweight title-holder for fifteen rounds to a decision on Monday night, June 26, at the New York velodrome. The match was finally consummated after days of wrangling at conference between Danny Morgan, manager of Britton, Billy Gibson, mentor for Leonard, and Frank Flournoy, matchmaker of the Madison Square Garden.

## Mlle. Lenglen Will Not Enter Tourney

LONDON, June 12.—News from Paris that Mlle. Suzanne Lenglen, French woman tennis champion, will not contest in the singles championship at the Wimbledon tennis tournament caused bitter disappointment in British sporting circles today.

Mrs. Molla Bjurstedt Mallory, the American woman champion, had hoped to meet Mlle. Lenglen for the championship.

## Americans Winners In Tennis Singles

LONDON, June 12.—In the first round of the Kent singles championship today, both of the American entries came through handily. Mrs. Bjurstedt Mallory, woman tennis champion of America, defeated Mrs. Prior 6-0, 6-1, while Miss Edith Signourney, of Boston, disposed of Mrs. Wood, 6-1, 6-1.

## COMMENT THAT'S ALL

People Are Much the Same  
Local Color at Daly City  
Californians Live Longer  
About 'Chinese Transits'

By Gil A. Cowan  
IN the passing of a most eventful week, including the visits of Rotarians and Shriners to Los Angeles and its environs, including Glendale, one must admit that people are much the same the world over.

A little incident Saturday which proves the point was the impromptu mob scene the Rotarians staged at the Robertson-Cole studio when they saw a movie in the making. Among those who were in the thick of the jam were visitors from Ohio, Iowa and Arizona.

From Shanghai, Paris and other places the Rotary representatives came and if you mixed them altogether only the Scotchman in his kilts could be identified, unless it was something in local color like that which Glendale and Sacramento provided.

Speaking of local color Daly City, Calif., sure had its share of excitement over the week-end. The people there will be talking wild man for a month.

Otto Herlich, who disappeared three years ago, came out of the rocks and underbrush where he had lived a primal life, naked and subsisting on berries, game and fish, and boldly entered a restaurant where he attacked four men seated at the counter.

Before they knew what had happened, two of them heard the little birdies twitter and the stars twinkled, for Otto had used his club on them.

City Marshal Hilton heard the commotion and he was greeted with a bump on the skull. However, he was able to shoot before he was swarmed and the bullet entered Herlich's body near the heart.

Now, what if all that excitement had happened here at home? It would give local color to a movie thriller, no doubt.

Figures showing that Californians live longer than the residents of most other states in the union is something that the Chambers of Commerce should capitalize immediately.

There is every reason in the world to believe that L. E. Ross, state registrar, is correct in this statement, for who is there living in Glendale that wants to die?

Favorable climatic conditions, quality of population and the large amount of conservation of child life are contributing factors to this favorable record, Mr. Ross points out.

All of which justifies Eagle Rock's slogan—"We LIVE Here!"

Some day when you are down along the Southern Pacific railroad tracks and you see a passenger train with hundreds of Celestials looking longingly out on the land of California, you will have seen something worthy of comment.

"Chinese transits," they are called, these immigrants who are en route to Mexico, Cuba or countries other than the United States. They are received by the immigration officers at San Francisco and placed aboard locked cars for their passage into foreign territory.

A. Cook, chief transit guard for the railroad company, in writing of his experiences, says: "Once placed aboard the trains the transits soon settle down. They are not allowed out of the cars until arrival at port of exit, sometimes a six-day trip. It is a tribute to their patience and forbearance that they accept these conditions of travel without complaint and make the best of what, to the average American, would be an almost intolerable confinement."

Besides the guards a sanitary inspector travels with the train and the food usually consists of Chinese delicacies such as rice, dried fruit and fresh food purchased by the railroad company.

The cooking is done in the cars. Card games provide almost the only recreation, while smoking is the Orientals' favorite pastime.

Now, what do you think of that?

Well, folks, it would seem that the comment column appeals to politicians.

Take that old war horse, Chet Rowell, for instance. The railroad commission doesn't provide him with enough mental work, so he writes and writes and writes.

But that is what he was doing while hearing the Glendale interurban race case a while back. Certainly he wasn't thinking of this city, the commuters complain.

And there's Charlie Randall, former congressman, who hasn't anything else to do. He has gone into the "colony" business for the Bone Dry people. Who is the next "has been" to elect themselves to the Comment Club?

Thank heaven I am not a "wuzzer" or on the bench—as yet!

Dedication of Mark Twain's cabin at Jackass Hill, Tuolumne county, which has been reproduced as a permanent landmark, took place yesterday. A old-fashioned western barbecue picnic, sponsored by the chambers of commerce in that neck of the woods, brought memories of the days when the author rambled around the countryside by day and wrote some of his most famous novels by night.

It is said that the reason for so many prodigious writers of yesterday is due to the fact they had no place to go—even after they got someplace. So they could sit down in the evening and write, instead of going motoring, to the movies or something else equally as distracting.

Charity begins at home, but don't let it end there.

## REUNIFYING CHINA MAY COME FROM BOLD STROKE

Li Yuan Hung's Action Is Causing Question Over 'Land of Surprises'

By JOHN W. ANDREWS  
For International News Service.  
PEKING, June 12.—Will the dramatic stroke of Li Yuan Hung in mandating Wu Ting Fang to assume the premiership as a climax to his own dramatic reappearance in Peking to assume the office of president, from which he was forced to resign in 1917 by the military coup of Chang Hsun, have the desired effect of reunifying China? This was the pressing question today all over this land of surprises.

The position of Wu Ting Fang, China's aged and revered diplomat, is unknown. Li Yuan Hung has not heard from Wu Ting Fang, who is minister of foreign affairs of the Southern China republic and the strong man of Dr. Sun Yat Sen's government.

The proposed appointment of Wu Ting Fang as premier is in keeping with the carrying out of Li's plan to establish a legal government in China.

Attitude Not Known  
What attitude Dr. Yat Sen and the Canton members of parliament will assume is also unknown. The appointment of Wu Ting Fang places them in a difficult position. If he should accept they would then begin the apparent attitude of opposing peaceful reunification should they refuse to co-operate.

Wu Pei Fu, virtual dictator of China, whose defeat of Chang Tso-lin made possible the return of Li Yuan Hung, has been offered the position of minister of war. His attitude has not been learned.

Dr. Wu Yen is acting premier pending the arrival of Wu Ting Fang from Canton and it is believed he will continue to act in the event Wu Ting Fang declines the appointment. Other appointments are pending the confirmation of parliament.

Li Yuan Hung suddenly appeared in Peking at noon Sunday to assume his old office.

Li's return was colorful in the extreme. A splendid ceremony marked his arrival.

Resplendent Uniforms  
Officialdom resplendent in uniforms decorated with medals, many hands, companies of infantry and cavalry with the famous Tartar wall as a background formed the setting as Li drove through the gate reserved for emperors.

Wu Pei Fu has resigned the inspectorship of the provinces to lead the way for the abolition of the military governors.

In the south the parliament lacks a quorum and Sun Yat Sen's position as president is illegal, yet more legal than the situation existing in the north.

The abolition of the military governorships is the biggest problem to overcome, however, and in this field all depends upon the strength of Wu Pei Fu, China's man of the hour.

## United States Not to Intervene, Is Announced

WASHINGTON, June 12.—The United States is pursuing a policy of strict non-intervention in the political affairs of China, according to an interview given to a Chinese newspaper in Peking by Jacob Gould Schurman, the American ambassador, and made public by the state department today.

Schurman granted the interview following reports in Japanese newspapers that the ministers of Great Britain, Japan, France and the United States had recommended to the governments that support be given to General Wu Pei Fu to assist him in establishing a stable government in China. The reports, Schurman said, were without foundation.

## World War Veteran Is Dead of Wounds

LOS ANGELES, June 12.—Lieutenant James R. Lowry, military instructor at Lincoln high school and widely known world war veteran, died early today at his apartment in South Fremont avenue from the indirect effects of wounds received in the trenches.

Detectives who investigated said that the army officer was ill during the night and awakened his roommate, Gordon Clark, shortly after midnight, complaining of illness, presumably caused by war gas. Lieutenant Lowry evidently fell off to sleep and when Clark arose this morning he went to his roommate's bed only to find him dead.

## Osmena Loses Control of Filipino Legislature

MANILA, June 12.—By a proposed coalition of the Collectivists and the Democrats, former Speaker Osmena, elected to the Philippine senate, loses control of the legislature and the vice-presidency of the council of state which he has held eight years. In the proposed coalition the Democrats are to be the most powerful element, although the plan really embraces the fusion and re-election of Manuel Quezon, president of the senate.

The Democrats believe in independence, but do not favor missions to Washington, believing the United States will keep whatever pledges have been made. The Democrats are campaigning on the facts of the Wood report and defeated candidates shouting for immediate independence.

It is understood that a proposal of self-government with permanent American sovereignty, something along the line of the plan recommended by the American chamber of commerce, will be considered as soon as conditions are favorable to all concerned.

International News Service has been informed today by a source close to the Bolshevik leader. The rumor that Lenine has been compelled to resign as president of the council of people's commissaries on account of his health was denied.
